PROFILE

A motivated Software Developer with hands-on experience in Android application development and Node.js backend services. Skilled in building performant native Android apps, designing RESTful APIs, and integrating mobile frontends with scalable backends. Passionate about delivering clean, maintainable code and growing with innovative teams.

TECHNICAL SKILLS

Android: Android Studio, Java, Kotlin, XML Layouts, Android SDK

Databases: MySQL, SQLite, Oracle

Version Control: Git, GitHub

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Languages: Java, Kotlin, JavaScript, Python, SQL

Other: Docker (Familiar), Prompt Engineering, Pandas, NumPy

EXPERIENCE

Junior Software Engineer (Android + Node.js) | Tiruppur

Nov 2025 – Present • Tiruppur, Tamil Nadu

- Developed native Android applications using Java/Kotlin and Android Studio, delivering smooth and responsive user experiences.
- Built and maintained RESTful backend APIs using Node.js and Express.js to support mobile app functionality.
- Integrated Android frontend with Node.js backend services via REST APIs for seamless data communication.
- Managed application data using SQLite (on-device) and MySQL (server-side) databases.
- Implemented JWT-based authentication to secure API endpoints consumed by the Android app.

Network Operations Associate Engineer | Nokia Solutions and Networks

May 2025 – Sep 2025 • Chennai, India

- Monitored network performance, alarms, faults, and KPIs using NOC tools.
- Performed basic troubleshooting for network issues across 2G/3G/4G/5G.
- Coordinated with field engineers and cross-functional teams to resolve network outages.

PROJECTS

Flood Risk Management

- Designed a data-driven flood prediction model using historical satellite imagery and AI-based analysis.
- Applied image processing techniques to improve accuracy in flood-prone area detection.

Smart Agriculture Using AI

- Developed an AI-based system for agricultural productivity through automated monitoring.
- Integrated machine learning for soil analysis and crop recommendations.

EDUCATION

B.E. in Computer Science and Engineering

Mohamed Sathak Engineering College, Ramanathapuram • CGPA: 7.8

CERTIFICATIONS

- Full Stack Development – Infosys SpringBoard (Mar 2023): Frontend, backend, database, and API integration.
- PHP and MySQL – IIT Bombay (Spoken Tutorial): Led team project achieving 40% efficiency improvement.
- Node.js – Infosys SpringBoard: Backend development and web performance optimization.
